PHIL ANTIPODA

FULL STACK DEVELOPER

PROFILE

I am a tech enthusiast with a passion for problem-solving and overcoming challenges. I actively seek opportunities to enhance my skills and develop as both a developer and a person. I am searching for an organization that prioritizes growth and encourages personal and professional development.

EXPERIENCE

React Developer

GrowthOps | Aug 2021 - Present

Specialize in creating responsive and adaptive solutions that perform optimally across all devices. Toolkit includes React, Typescript, and Next.js framework, as well as GraphQL for efficient data fetching. Maintain efficient, scalable, and robust code using automated testing with Jest and React Testing Library, integrated into a CI/CD pipeline. Consistently excels at completing projects within designated timeframes and effectively communicating progress with stakeholders.

Junior Systems Developer

RNA | April 2021 - Aug 2021

Monitors and maintains the company's website by improving its performance and fixes bugs accordingly. Collaborated with content creators to ship new features primarily using Javascript and ASP.NET MVC. Creates new ASP.NET Core web apps predominantly used by other departments integrated with the company's SQL database and third party web APIs.

Full Stack Engineer - Intern

Dingo Software | Feb 2021 - Mar 2021

Developed an interactive admin dashboard by integrating the company's API to the app using Node.js and React. Implemented CI/CD workflow to automate tests, builds and deployment. Demonstrated the agile methodology by constantly meeting and delivering requirements.
